RAWLPLUG®

EXPERT IN FIXINGS, FASTENERS AND TOOLS

From London to Mars

- 1934 Rawbolt: The world's first mechanical anchor, patented by Rawlplug.
- 1941 Rawnut Shock and vibration proof fixing device.
- Spring Toggle . The world's first metal anchor for drywall.
- 1948 Rawlanchor World's first cavity interset fixing.
- 1969 R-OLD Launch of production of plastic expansion plugs in Glasgow, UK.

Products for each sector of the construction industry

- 2006 EasyFix. Professional calculation software.
- 2007 CFS + Cartridge Free System. Cartridge free system for bonded anchors. Less waste and high performance.
- 2009 Direct Fastening Systems. For safer and quicker onsite jobs.
- HPT & XPT. New line of HPT and XPT Throughbolts.
- 2010 Bonded Anchors. Cartridge system for bonded anchors.
- No.1 expansion plug in the UK. Simplicity and outstanding performance combined.

All around the world

- 1887 Rawlings Brothers Starting a small electrical engineering company in London, UK.
- 1911 The world's first expansion plug John Rawlings invented and patented the first wall expansion plug.
- 1919 Rawlplug Company Ltd Changing the company name to Rawlplug Company Ltd.
- 1930 Rawhammer. The world's first patented hammerdrill.
- 1980 Safety Plus. Heavy duty expansion anchors.
- 1998 ETA Certification Rawlplug became the first UK manufacturer with ETA.
- 2002 Stapling, Tacking and Gluing High efficiency for site and DIY work.
- 2005 UNO® Plug. No.1 expansion plug in the UK. Simplicity and outstanding performance combined.

Knowledge & competence development

2011 FF1 Frame Fixings. Best installation performance for use in all base materials.
 2012 Sustainable Rawlplug. Our policy inauguration.
 Foams, Sealants & Adhesives. Wide variety of products for any application.
 2013 TFIX Facade Fixings. For energy-saving building industry.
 Power Tool Accessories. Innovated accessories you can really trust. 4ALL Universal plug for all substrates.
 2014 Passive Fire Protection System. Providing safety in critical applications.

The evolution of the perfect Rawlplug

Expert
in fixings,
fasteners and tools

2016 POS. Point Of Sale Exposition System, which sells itself.

2017 BIM. Building Information Modeling.
Rawlplug Academy Expand your knowledge and improve professional skills.
R-KER II. Bonded Anchor, Hybrid Resin.

2019 Celebrating 100 years! RAWLPLUG Anniversary.

100 years
1919-2019
RAWLPLUG®

2019 is a very special year for Rawlplug brand. Already upon the conception of the Rawlplug brand in 1919, John Joseph Rawlings dreamt of making it the global brand of first choice. But he couldn't have suspected that 100 years later the portfolio of our investments would include London's Wembley Stadium, the Cape Town Stadium, the Yas Marina Formula 1 circuit, Dubai's Burj Khalifa Tower, the Olympic Park in Sochi or the Grand Egyptian Museum in Giza. He couldn't have possibly imagined that Rawlplug's DIN 7984 bolts would be used to build the Curiosity rover exploring the planet Mars under the Mars Science Laboratory project.

And by no means could he have conceived that our manufacturing plants would daily ship products to more than 70 countries all over the world. While we still consistently pursue his vision by designing our selection of products and services in a way which proves that Rawlplug knows and understands its customers. Because Rawlplug stands by them, day by day. Rawlplug supports and communicates with them, sharing know-how and experience. Rawlplug provides customers with **products, highly specialised services and innovative training courses – the 3 pillars of the offering** which matches even the most challenging tasks tackled by professionals.

Get more information about Rawlplug's 100th anniversary on rawlplug.com

Rawlplug® Products

BONDED ANCHORS

- **Injection Cartridges Systems**
 - Polyester Resins
 - Epoxy Resins
 - Vinylester Resins
 - Hybrid Resins
- **CFS+ Cartridge Free System**
 - Vinylester Resins CFS+
 - Polyester Resins CFS+
- **Capsules**
 - Hammer-In Vinylester Capsule
 - Spin-In Vinylester Capsule
- **Bonded Anchor Accessories**

MECHANICAL ANCHORS

- Heavy Duty Expansion Anchors
- Shield Anchors
- Throughbolts
- Drop-in Anchors
- Concrete Screw Bolts
- Mechanical Anchors Accessories

LIGHTWEIGHT FIXINGS

- Frame Fixings
- Lightweight Metal Fixings
- Hammer Fixings
- Plastic Expansion Plugs
- Plasterboard Fixings
- Special Fixings

FAÇADE INSULATION FIXINGS

- Screw-in Façade Fixings
- Hammer-in Façade Fixings
- Washers
- Façade Insulation Accessories

ROOFING INSULATION FIXINGS

- Telescopic Sleeves
- Roofing Screws
Screws for Concrete
Screws for Steel
- Roofing Washers

PASSIVE FIRE PROTECTION SYSTEM, FOAMS, SEALANTS & ADHESIVES

- Fire Resistant Sealants
- Fire Resistant Mortars
- Firestop Board
- Foams
Gun Foams
Handheld Foams
Polyurethane Foam Mortars and Adhesives
Fire Resistant Foams
Foams Accessories
- Sealants
Silicones
Roof Rubber Sealants
Acrylics
Sealants & Adhesives
- Express Cement

DIRECT AND MANUAL FASTENING SYSTEMS

- Gas Actuated Products
- Pneumatic Products
- Powder Actuated products
- Stapling
Professional Line

POWER TOOL ACCESSORIES

- Drill Bits and Chisels
- Bits, Sockets and Adapters
- Sawing Accessories
- Diamond Discs
- Angle Grinder Cutting and Grinding Wheels
- Other Accessories

Services

Our entire team is composed of actual experts in the field of fixing solutions. They are industry professionals with many years of experience in the vast area of construction engineering who have spent their whole professional life in close proximity of clients, never waiving any challenge at hand. The close collaboration and experience exchange between designers, contractors, sales-people and the international Rawlplug team turn the solutions we propose into genuine advisory. What's more - all services offered by Rawlplug are free of charge.

Tools for designers

Our portfolio comprises a set of complementary services and tools matching our products that, on the one hand, will make it easier for you to choose suitable fixing solution and design them correctly, and on the other hand, provide you with the information you will find indispensable for the future use. You are welcome to use:

EasyFix

Our original application dedicated to engineers and designers. This simple, yet multifunctional tool enables you to run calculations and develop designs using Rawlplug fixings. EasyFix is a guarantee of reliability and safety, since both the program itself and the calculations it delivers conform to the standards defined in European Technical Approval Guidelines (ETAG).

FREE software download:
www.easyfix.rawlplug.com

ON-LINE APPLICATION

An on-line application containing a comprehensive portfolio of models, plan views and technical drawings of Rawlplug fixings along with their full technical documentation. It enables you to use all of them in some of the most popular BIM/CAD environment software packages.

PRODUCT SELECTOR

Designed to make the choice of products matching your design's requirements easier and quicker. It is here that you can quickly view the full portfolio of criteria - from the type of substrate, a recommended application, approvals and certificates, materials and coatings, environmental conditions to an indication that a product is new in our offer. The presentation of each product includes a set of photos, drawings, technical models, video tutorials, data sheets, approvals and so on.

Fixings & Fasteners Selector

TECHNICAL LIBRARY

Contains technical documentation of products divided into as many as 15 categories. All you need to do is enter the name of the product and a list of all technical documents available in our library will appear in the search results.

> Technical Assistance

Our team is ready to deliver comprehensive technical assistance. The range of services comprises:

- **technical advisory,**
- **site testing,**
- **assistance in designing of fixings,**
- **technical FAQ.**

TECHNICAL ADVISORY

Our clients are offered the support of an engineering team from the Technical Department. They are ready to answer all your questions pertaining to the design of fixings, the range of their applications, the installation process or the service of Rawlplug's products. You only need to fill in the Technical Request form on www.rawlplug.co.uk

SITE TESTING

While running site tests, we make use of our signature standard, designed with reference to the requirements of British Standard BS:8539 as well as guidelines of the British Construction Fixings Association (CFA). It was our team of experts, being members of the Technical Committee, who developed these principles and who provide testing oversight.

ASSISTANCE IN DESIGNING OF FIXINGS

We offer support for the extensive range of fixing design activities. Our team of engineers from the Technical Department is at your disposal. They will answer all your questions related to the design of fixings and their recommended applications. We encourage you to contact our experts on www.rawlplug.co.uk

TECHNICAL FAQ

Based on our experience to date, and thanks to the regular close relationship with our customers and understanding of the challenges they face on a daily basis, we have developed a list of the most typical issues and areas in the format of easily searchable questions and intuitive answers. The list of the most frequently asked questions is available on www.rawlplug.co.uk

> Rawlplug POS System

Presentation of Rawlplug's products is based on an integrated display system operating on 3 levels:

- **Point of Sale product display system**
- **labelling**
- **packaging**

What we offer in this scope is innovative across the market and provides us with unquestionable competitive edge. Not only does the POS product display system ensure formal attractiveness, but primarily stands for unparalleled functionality and intuitiveness whenever Rawlplug products are to be chosen from among hundreds of other items available on store shelves. And even more importantly, it supports the consumer in making the right choice.

When designing the POS system, we were guided by principles that reflect the real needs and behaviour of customers at the point of purchase. By that means we have managed to create features that are characteristic only for the Rawlplug product display system: colour coding, key words, installation guidelines, QR codes, standard display system, customised display system, unique packaging, environmental sustainability

COLOUR CODING

products intended for specific substrates are marked with specific colours, enabling instantaneous choice of suitable products with this criterion in mind.

KEY WORDS

in order to describe our products we have used key words that users recognise intuitively, which significantly speeds up the choice of what one truly needs.

INSTALLATION GUIDELINES

simplicity of use is crucial to contractors, and we additionally allow them to quickly read and understand instructions thanks to icons and step-by-step type presentation models

QR CODES

every product packaging features a QR code the scanning of which provides you with access to videos and animations with installation instructions.

STANDARD DISPLAY SYSTEM

we can provide you with complete display systems ready for installation at points of sale, with all the features required to enable making appropriate and quick choice of products in demand.

CUSTOMISED DISPLAY SYSTEM

we also provide you with an opportunity to develop a customised display set based on individual, specific customer requirements, which is possible thanks to the modularity of our solutions as well as their adaptability to any size and layout of a specific shop.

UNIQUE PACKAGING

for every product, we have developed attractive, ergonomic and comfortable to use unique packaging.

ENVIRONMENTAL SUSTAINABILITY

our products are manufactured using sustainable technological standards which matter greatly to environmental protection.

Rawlplug Academy

Inspired by knowledge & skills

Rawlplug Academy is an innovative development project intended for our clients. It is a unique venture across the industry, dedicated to education, competence building as well as knowledge and experience sharing, designed to reflect the actual needs of engineers and designers, contractors and salespeople. What you receive is a single point of access to an integrated training package that will not only help you in everyday operations, but also assist you in the development of your specialisation.

A state-of- the art knowledge and training platform

Courses available online – you study when and where you want

Varied forms of training

Courses designed in accordance with both business and personal needs

4 types of training categories:

courses that develop products and services competences, operating systems skills and legally required courses

Enhance your knowledge, master new skills

Every course concludes with a test

> Under the **Rawplug Academy**, we perform three types of training activities:

- **Rawplug Academy's original training courses** devised to reflect the operating needs of our customers,
- **vocational training** courses conducted under prestigious country-specific educational programmes,
- **video tutorials** collected in a library of training videos and animations.

ORIGINAL TRAINING COURSES

The Rawplug Academy original training scheme comprises series of specialised courses, soon to be available to our on-line clients as well.

Book now for a selection of courses:
www.rawlcentre.com

VOCATIONAL TRAINING COURSES

Being a professional partner who provides clients with integrated education and knowledge sharing services, we extend our Rawplug Academy related activities by participating in development programmes whose purpose is to expand specialised qualifications and improve field-specific competencies. This is why our experts have become personally engaged in developing training courses and workshops under the Continuing Professional Development scheme and BS:8539.

CPD Seminars

Specialists representing the Rawplug team take part in various initiatives, tutoring industry-specific seminars, co-moderating major conferences and events relevant to the sector as well as organising practical workshops aimed at improving participants' competencies in terms of professional choice and applications of fixing and fastening solutions. In this milieu, we collaborate with such parties as the Institution of Civil Engineers (ICE) and the Institution of Structural Engineers (IStructE). Each person taking part in the CPD seminars run by experts from Rawplug Ltd. acquires qualifications documented with a certificate that proves to be a significant add-on to a professional portfolio.

BS:8539 COURSES

Rawplug Ltd. is a certified member of the Construction Fixings Association (CFA). The membership is indeed a prestigious achievement, but it also an obligation. That is why, we organise and conduct seminars and workshops in line with British Standard BS:8539. This means that as we deliver training we always rely on the best available practices. Participation in BS:8539 courses is certified, which enables the participant to formally confirm the qualifications and competencies thus acquired.

VIDEO TUTORIALS

Based on many years of observations of the processes and activities connected with everyday operations performed by our clients, we have developed scripts for video tutorials. How do they work? We teach you how to choose the best fixing solutions. We demonstrate where and under what circumstances they should be applied. We present how to use them under real-life conditions. And the entire content is delivered in a simple, intuitive and comprehensible manner. You are welcome to use the library of Rawplug's video tutorials.

SERVICES

We have genuine experts on board – specialists who cooperate on a daily basis to keep track of the actual needs of construction professionals.

They continuously seek to improve the Rawlplug® service package, focused on technical and design support for architects, constructors and contractors. They track even the most specific and ambitious expectations of customers, and successfully integrate them with our solutions. Rawlplug® has been investing in the development and improvement of tools intended to make your daily work easier and to enhance its comfort, efficiency and quality. And we haven't stopped there, since all our services are rendered at no extra charge.

R-LX Concrete screwbolt

Self-tapping concrete screwbolt. ETA Option 1 cracked and non-cracked concrete.

Packaging

Approvals and Reports

- ETA Option 1

Features

R-LX screws have been designed in two variants, and come with high quality zinc electroplated (ZP) finish or zinc-flake (ZF) finish of even higher corrosion resistance.

The manufacturing process has allowed us to eliminate the risk of what is referred to as hydrogen embrittlement which haunts contractors when they decide to use products made of high hardness carbon steel.

Facade Insulation Fixings & Rainscreen Cladding

Rawlplug has been uniquely associated with innovations in the field of fixings for over 100 years. For more than 30 years, our line has been to design, manufacture, sell and fully maintain fixings for facade thermal insulations. Our company is unique in recognizing needs of contractors and manufacturers of insulation systems by cooperating with them and constantly developing our products.

To provide flexible and reliable solutions that ensure quick and simple installation, we have created the innovative TFIX facade fixings – designed for professionals, conforming to the ETICS requirements and backed by the European certificates.

The standard of our products has been defined by our customers and it is for them that we have precisely designed and now recommend the high-quality product, which provides:

- safe anchoring in every type of substrate with the highest technical parameters guaranteed;
- hidden anchoring of the fastener in the thermal insulation layer with no additional accessories needed;
- fixing of the thermal insulation up to 420 mm of thickness range;
- reduction of thermal transmittance in the anchoring point;
- very simple and quick installation; complete service - design consultation, training and site support.

R-LX Concrete screwbolt

Self-tapping concrete screwbolt. ETA Option 1 cracked and non-cracked concrete.

Features

R-LX screws have been designed in two variants, and come with high quality zinc electroplated (ZP) finish or zinc-flake (ZF) finish of even higher corrosion resistance.

The manufacturing process has allowed us to eliminate the risk of what is referred to as hydrogen embrittlement which haunts contractors when they decide to use products made of high hardness carbon steel.

RAWLPLUG TOOL SERVICING DISCLAIMER

Service within Warranty Period

Once the Rawlplug Tool has fired in excess of 40,000 shots, there may be a need for a service. This is a chargeable general maintenance service and is not included in the warranty period issued with tool on purchase. The general maintenance of the tool is the responsibility of the owner.

Warranty Return

If your Tool develops a fault within the warranty period you should return to the place of purchase, please include the proof of purchase. The tool will then be returned to Rawlplug to be assessed by our Technical Team. Once repaired or serviced it will be returned to the place of purchase. Please note if there was no fault but just needed a service this will be chargeable will then be assessed by our Technical Team. The tool will be returned to the point of collection.

Repair or Service outside of Warranty

If your Rawlplug Gas Tool requires a repair, due to a fault or your tool is outside of the warranty period and requires a service, please send it direct to:

Tool Return Dept, Rawlplug Ltd, Skibo Drive, Thornliebank Ind. Est. Glasgow G46 8JR.

For any of the above options there will be a supplementary cost dependent on the tools condition.

For more information on servicing and warranty returns, please contact our Tool Return Department via service@rawlplug.co.uk, or call 0141 638 7961

RT-BIT-ADAP/2M Bit holder with 2 magnets

Bit holder with 2 magnets precisely holds the screws during application in a variety of substrates

Packaging

1. DEFINITIONS

In these conditions "Rawlplug" shall mean Rawlplug Limited; "the Goods" shall mean the products supplied or to be supplied by Rawlplug under any Contract; "the Customer" shall mean the company firm or person buying the Goods from Rawlplug under any Contract and "Contract" shall mean a contract between Rawlplug and the Customer for the sale and purchase of the Goods.

2. APPLICATION OF CONDITIONS

All Goods supplied by Rawlplug are supplied on the following terms and conditions and no variation of those terms and conditions shall have effect unless expressly accepted by a Director of Rawlplug in writing. Rawlplug's conditions exclude any other terms and conditions which the Customer may seek to impose whether or not the Customer's conditions are contained in any other acceptance or counter offer made by the Customer.

3. QUOTATIONS

All quotations given by Rawlplug are subject to acceptance by Rawlplug on receipt of the Customer's order. A Contract will only be formed when Rawlplug has accepted the Customer's order.

4. ACCURACY OF DESCRIPTION OF GOODS

All descriptions specifications drawings and particulars of weights and dimensions submitted by Rawlplug or otherwise contained in Rawlplug's price list or other published matter are provided by Rawlplug in the belief that they are as accurate as reasonably possible but none of these shall form part of any Contract, shall not constitute a description of the Goods or be taken to be representations made by Rawlplug and are not warranted to be accurate.

5. PRICE

All prices quoted are Rawlplug's current prices at the time of delivery and are exclusive of VAT unless otherwise stated. The price payable for the Goods shall be the price ruling at the date of dispatch and Rawlplug shall be entitled to adjust the price of the Goods at any time between the date of the order and the date of delivery of the Goods to take account of any increase in costs incurred by Rawlplug.

6. DELIVERY

6.1 Delivery shall be deemed to have been effected:

6.1.1 Where the Goods are carried in a vehicle owned by Rawlplug or in a vehicle owned by a carrier employed by Rawlplug when the vehicle is stationary as near to the point of delivery designated by the Customer as it can reasonably get and the delivery note is tendered to the Customer or the recipient of the Goods where delivery is not directly to the Customer.

6.1.2 In all other cases when the Goods leave Rawlplug's premises.

6.2 Time for delivery is not of the essence and Rawlplug shall not be liable for any loss or damage caused by late delivery or by non-delivery.

6.3 Rawlplug shall be entitled to make delivery by instalments and to invoice separately for each installment. Where delivery is made by instalment each instalment shall be construed as the subject of a separate agreement to which all the provisions of these conditions shall (with any necessary alterations) apply.

6.4 Where Rawlplug has agreed to deferred delivery such delivery shall be accepted by the Customer within six months from the date of the order. If the Customer fails to take delivery within such a period the risk shall pass to the Customer and the balance remaining undelivered together with storage costs shall be invoiced to the Customer and payment shall become immediately due.

6.5 Goods which the customer agrees to collect ex works must be collected within seven days of Rawlplug notifying the Customer that the Goods are ready. If the Goods are not collected within this period Rawlplug shall be entitled to invoice the Customer for the Goods and to charge for storage of the Goods the Goods being held at the Customer's risk.

6.6 Deviations in quantity of the Goods delivered from those stated on the Contract shall not give the Customer the right to repudiate the Contract to reject the Goods (save insofar as they materially exceed the amount ordered) or to claim damages for breach of Contract and the Customer shall be obliged to accept and pay at the Contract rate for the quantity delivered (except insofar as the Customer has the right to reject the Goods under this condition).

6.7 The Customer shall ensure that the point of delivery designated by the Customer and all access routes to it are reasonably accessible for motor transport and shall also take such further steps as are reasonably necessary to facilitate delivery by Rawlplug at such point of delivery.

6.8 Proof of delivery is available from the customer services department for a period of 28 days from the date of invoice. If a proof of delivery is requested more than 28 days after the date of the invoice or requested again Rawlplug Ltd shall be under no obligation to provide such proof and if the company decides to provide such proof of delivery it shall charge and administration fee of £5.

7. PAYMENT

7.1 The price of the Goods (less any discount to which Customer is entitled) shall be due and payable on the last day of the month following that in which the invoice is dated. The time of payment of the price of the Goods shall be of the essence of the Contract.

7.2 If the Customer fails to make payment in respect of any invoice on the due date;

7.2.1 All invoices for Goods delivered for which payment has not been received shall become immediately due and payable notwithstanding clause 7.1 or any previous agreement to the contrary.

7.2.2 Without prejudice to any other right or remedy available to Rawlplug, Rawlplug shall be entitled to:

7.3.1 Charge the Customer interest (both before and after judgement) on the amount unpaid at the rate of 2% above the U.K. Clearing Bank base lending rate from time to time, until actual payment on all overdue accounts. 7.3.2.2 cancel the Contract or suspend any further deliveries to the Customer.

7.4 Rawlplug reserves the right at any time to demand security for payment before continuing with or delivering any order.

8. RISK AND PROPERTY

8.1 Risk in the Goods shall pass to the Customer when the Goods are delivered or collected by the Customer or its agent.

8.2 Notwithstanding delivery and the passing of risk in the Goods the Goods shall remain the property of

Rawlplug until the Customer has paid the full price for the goods and all other sums owing from it to Rawlplug under any Contract together with any interest payable under any Contract in respect of the Goods.

8.3 Until title to the Goods passes to the Customer the Customer shall hold the Goods as fiduciary agent and bailee for Rawlplug and shall keep the Goods in good and substantial repair and condition properly stored protected and insured and the Goods shall be stored in such a way as to be clearly identifiable as belonging to Rawlplug.

8.4 Until such time as the title in the Goods passes to the Customer (and provided the Goods are still in existence and have not been re-sold) Rawlplug shall be entitled at any time to require the Customer to deliver up the Goods to Rawlplug and if the Customer fails to do so forthwith to enter upon any premises of the Customer or any third Party where the Goods are stored and repossess the Goods.

8.5 Rawlplug shall at any time be entitled to appropriate any payment made by the

Customer in respect of any Goods in settlement of such invoices as Rawlplug may in its absolute discretion think fit notwithstanding any purported appropriation by the Customer.

9. INSPECTION • SHORT AGES

9.1 The Customer shall inspect the Goods on delivery or on collection as the case may be. 9.2 Rawlplug shall be under no liability for any defects or shortages that would be apparent on careful inspection if the terms of this Clause are not complied with and in any event will be under no liability if a written complaint is not delivered to Rawlplug within seven days of delivery detailing the alleged defect or shortage.

9.3 In all cases where the Customer complains of defects or shortages Rawlplug shall without prejudice to the question of liability generally be under no liability in any event if it has not been given an opportunity to inspect the Goods before they had been used by the Customer.

10. WARRANTY

10.1 Rawlplug warrants that it has title to and the right to sell the Goods.

10.2 No representation or warranty is given by Rawlplug as to the suitability or fitness of the Goods for any or any particular purpose and the Customer shall satisfy himself in this respect and shall be totally responsible therefore.

11. LIABILITY EXCLUSIONS

11.1 Each of the sub-clauses in this clause are to be treated as separate and independent. 11.2 Nothing in these conditions shall exclude or restrict Rawlplug's liability for death or personal injury caused by the negligence of Rawlplug.

11.3 Rawlplug is willing to undertake liability additional to that provided by this clause 11 in exchange for a higher price for the Goods.

11.4 Rawlplug will either repair the Goods at its own expense or at its option replace the Goods if any defects which Rawlplug is reasonably satisfied are caused by faulty design manufacture materials or workmanship which are discovered within three months from the date of dispatch provided that Rawlplug shall not be liable for defects caused by abnormal use misuse or neglect or use other than in accordance with any applicable Rawlplug technical instructions or similar literature and provided further that the Customer informs Rawlplug of the relevant defect in writing within seven days of delivery (or where the defect was not apparent on reasonable inspection) within seven days of discovering it.

11.5 Other than the terms set out in these conditions no other terms conditions or warranties expressed or implied statutory or otherwise shall form part of the Contract.

11.6 Rawlplug shall not be liable for any direct or indirect loss or damage, loss of profit, loss of goodwill or loss of business opportunity suffered by the Customer or any damage to property of the Customer or anyone else whatsoever howsoever arising and whether or not caused by Rawlplug's negligence.

11.7 In the event that notwithstanding the foregoing provisions of this clause Rawlplug is found liable for any loss or damage suffered by the Customer then Rawlplug's total liability for any one claim or for the total of all claims arising from any one act or default of Rawlplug (whether arising from Rawlplug's negligence or otherwise) shall not in any event exceed the Contract price for the Goods.

12. INSOLVENCY OF CUSTOMER

If the Customer being a company shall pass a resolution or suffer an order of a court to be made for its winding up or goes into liquidation (otherwise than for the purposes of amalgamation or reconstruction) or makes any voluntary arrangement with its creditors or becomes subject to an administration order or an encumbrancer takes possession or a receiver or administrative receiver is appointed of any of the assets or property of the Customer or being an individual or partnership shall suspend payment or propose to enter into any composition with creditors or becomes bankrupt or in either case becomes unable to pay its debts (or have no reasonable prospect of so doing) or threatens to cease to carry on business then without prejudice to any other right or remedy available to Rawlplug, Rawlplug shall be entitled to treat the Contract as repudiated or suspend any further deliveries or recover the possession of any Goods for which payment in full has not been received without liability to the Customer and if Goods have been delivered but not paid for the price of those Goods shall become immediately due and payable notwithstanding any previous agreement or arrangement to the contrary.

13. SAMPLE GOODS

In no circumstances will Rawlplug sell its Goods by sample and the supply of sample Goods to Customers or prospective Customers is not intended to provide them with a contractual specification of the Goods or to constitute a sale or offer of sale by sample.

14. HEALTH AND SAFETY AT WORK

Rawlplug gives notice to the Customer that information and product literature is available concerning the conditions necessary to ensure that the Goods supplied against the Contract will be safe and without risk to health when used handled processed stored or transported by a person at work. The Customer should immediately contact Rawlplug if he is not in possession of such information or literature.

15. ASSIGNMENT

The Customer shall not assign or transfer or purport to assign and transfer any Contract to which these conditions apply or the benefit thereof to any other person whatsoever.

16. FORCE MAJEURE

Rawlplug shall not be liable for any failure to deliver the Goods arising from circumstances outside Rawlplug's control including for example acts of god, war, riot, explosion, abnormal weather, fire, flood, strikes, lock outs, Government action or Regulations (UK or otherwise) delays by suppliers, accidents and shortages of materials, labour or manufacturing facilities.

17. CANCELLATION

No cancellation by the Customer is permitted unless expressly agreed by a Director of Rawlplug in writing. In the event of cancellation the Customer will indemnify Rawlplug fully against all expenses incurred by Rawlplug together with liquidated damages of 15% of the Contract price.

18. NOTICES

Any notices to be given hereunder shall be in writing and shall be deemed to have been duly given if sent or delivered to Rawlplug at its address (given below) or such other address as that party may from time to time notify in writing and shall be deemed to have been served and sent by post 48 hours after posting.

19. WAIVER

No waiver by Rawlplug of any breach of the Contract by the Customer shall be considered as a waiver of any subsequent breach of the same or any other provision.

20. JURISDICTION

All contracts between Rawlplug and the Customer shall be governed and construed in accordance with English law and all disputes arising in relation to such Contracts shall be submitted to the jurisdiction of the English courts save that Rawlplug retain the right to take proceedings in any other court of competent jurisdiction.

21. HEADINGS

Headings in these conditions are for each of reference only and do not form part of the conditions and shall not be deemed to alter or affect the meaning of any of the conditions.
